## **Landscape Design & Consultation Services**

Is your home or garden in need of a makeover? Apple Valley Nursery has thousands of trees, shrubs, evergreens and perennials to fit your rejuvenation desires and help make your dreams of your ideal home and garden come true! Our personalized service and positive reputation allow us to provide full, immediate attention to each of our home and business customers while keeping rates reasonable. Our mission is to assist you, our customer, in planning, installing, and maintaining a landscape that is appropriate to your unique personal setting.

### **LANDSCAPE DESIGN PLANNING**

#### **LANDSCAPE CONSTRUCTION PROJECTS**

During our initial consultation we will take a tour of your yard, discuss your needs & preferences, and go over ideas & suggestions for your home. The consultation usually takes 45-60 minutes and the cost is \$50-100 (depending on your distance from us) to cover expenses.

During the design planning process we will take measurements and use our tour notes to design a complete landscape design for your home. Once your design is complete, we will place all the plants included in your design together in a scaled down model of your design at our garden center. This will allow you to view the actual plants to be used side-by-side and decide what changes you think would best fit your tastes. The ultimate goal is to complete a landscape design that is custom tailored to your individual preferences, creating a unique landscape that you helped create. Because we do not charge for our landscape design services, you will receive a copy of the landscape design only after we have received the down payment and signed contract for your project. Due to the cost and time of landscape design services that are ordinarily charged exorbitantly for and since we are graciously absorbing that cost in return for your business, we cannot spend time completing landscape designs only to have them taken to another garden center where the plants are purchased there.

#### **DO-IT-YOURSELFER**

For the do-it-yourselfer, we provide free landscape consulting services at our garden center. Bring in pictures with detailed dimensions of areas you are thinking about landscaping, and our staff will work with you on selecting companion plants that complement each other as well as the area you are landscaping.
